

# Huawei eSpace 8950 Video Phone Datasheet

Huawei eSpace 8950 is a smart, sleek video phone that integrates voice, video, and Unified Communications (UC) applications. It delivers more engaging communication and collaboration, with unmatched security, High Definition (HD) audio and video, simplicity, and smooth operation.

### Highlights

### High-fidelity, crystal-clear audio performance

- eSpace 8950 is designed with two high-fidelity audio speakerphones that accurately reproduce sound.
- It also employs a full-band voice codec with a sampling frequency as high as 48 kHz, which provides crystal-clear, HD audio performance for a truly immersive experience.

### High-resolution, secure video camera

- eSpace 8950 comes with a 2.0 megapixel HD camera whose angle is adjustable to capture exquisite and vivid images with more details. The camera provides a shutter for privacy protection.
- eSpace 8950 also can work with a telepresence system, delivering an HD
  conferencing experience. In addition, eSpace 8950 supports Secure Realtime Transport Protocol (SRTP) and Transport Layer Security (TLS) protocols for
  encrypted transmission, ensuring secure data communications.

### HD, multi-touch screen

- eSpace 8950 is equipped with a highly sensitive, 8-inch, In-Plane Switching (IPS) touch screen that supports multiple touches.
- The IP phone screen features a clear, 1,280 x 800-pixel high-resolution display, and a super-wide,  $178^{\circ}$  viewing angle.

### Efficient, enjoyable User Interface (UI)

 eSpace 8950 provides intuitive touch screen navigation for efficient operations. Users can create and join conferences by pressing just a few buttons for easy-to-use conference control operations. The stylish flat UI design, meanwhile, delivers an enjoyable user experience.
